

COPPER & FIBER CABLES ... Get Connected, *RIGHT* on Time!

4RU High Density Rack Unit 72 Port Maximum Patch Panel

Product Description:

Our 4RU Modular Patch Panel is designed to transition multi fiber trunk cables to multiple types of standard connector interfaces such as ST, FC, D4, SMA, SC, SC Duplex, MT-RJ, LC, MU, ESCON, etc.

Accessible from the front and rear, these panels are very dense and can be changed out quickly. Our panels can be installed in open relay racks, enclosed cabinets and vendor provided equipment cabinets.

Coupler housings on the front of each coupler panel are color coded adhering to industry standards, offered in Beige for Multimode 62.5/125, Black for Multimode 50/125, Blue for Singlemode 8.3/125, and Green for Singlemode (APC) Angle Polish 8.3/125. This allows you to establish what type of cable needs to be plugged in the front of the patch panel with a glance.

(HD4RU) 72 Port
Height: 7" (4RU)
Color: IBM Beige/Light Tan
Dimensions: 17"W 7"H 12"D
Capacity: 72 Connectors

Key Features:

- Universal mounting brackets for full compatibility with standard 19-inch and 23 inch racks and cabinets
